SUMMARY

Final-year Computer Science student specializing in backend development, scalable web applications, and AI-integrated systems. Built production-style projects using Spring Boot, MongoDB, Python, and Streamlit, including a QR-based access platform used by 500+ students. Strong in API design, performance optimization, and real-world problem solving.

EDUCATION

Narsimha Reddy Engineering College

Bachelor of Technology in Computer Science and Engineering | CGPA: 7.7

Sri Bhashitha Junior College

Intermediate (MPC) | Percentage: 89%

RSK High School

SSC (10th Grade) | GPA: 9.5

Hyderabad, India

Nov 2022 – May 2026

Nizamabad, India

Jul 2020 – Mar 2022

Hyderabad, India

Jun 2019 – Apr 2020

EXPERIENCE

AI Developer Intern

Viswam.AI (Swecha Telangana, IIIT Hyderabad, Meta) Certificate

- Implemented and deployed AI models in Streamlit applications for real-time inference and visualization.
- Contributed to open-source projects under free software principles.
- Used Git-based version control and deployed Hugging Face models for collaborative AI workflows.

Java Full Stack Intern

Thinkpad EduTech Solutions Pvt. Ltd. Certificate

- Designed and implemented RESTful backend services for product, cart, and order management using Spring Boot.
- Modeled and managed scalable cloud-based data using MongoDB Atlas.
- Built responsive UI using Thymeleaf and Bootstrap following MVC architecture.

May 2025 – Jun 2025

Hyderabad, India

May 2025 – Jun 2025

Hyderabad, India

PROJECTS

Deep Learning for Edge Computing in Indian Smart Cities | Python, TensorFlow

Sep 2025 – Oct 2025

- Developed lightweight deep learning models for real-time analytics on edge IoT devices, reducing latency by 40%.
- Optimized inference using TensorFlow Lite for efficient performance on low-power and resource-constrained hardware.
- Implemented AI-IoT data processing pipelines supporting smart city analytics.

Scalable E-commerce Platform | Java, Spring Boot, MongoDB, Thymeleaf, HTML/CSS

May 2025 – Jul 2025

- Designed and developed a scalable full-stack e-commerce platform with shopping, seller, and order modules.
- Optimized cloud-hosted MongoDB Atlas queries and REST APIs, boosting system performance by 25%.
- Designed a responsive UI with Thymeleaf and Bootstrap, ensuring seamless multi-device experience and maintainability.

QR Code Entry Pass System | Python, Streamlit, Git

Mar 2025 – Apr 2025

- Designed a secure one-time token-based QR authentication system for student entry validation.
- Built a real-time QR scanning and verification dashboard using Streamlit for coordinators.
- Automated access control workflow and successfully validated 500+ student entries with high accuracy.

TECHNICAL SKILLS

Languages: Java, Python

Backend: Spring Boot, REST APIs, Thymeleaf

Frontend: HTML, CSS, Bootstrap, Basic React

Databases: MongoDB Atlas, MySQL, Firebase

Tools: Git, GitHub, Postman, VS Code, IntelliJ

Concepts: OOP, MVC Architecture, API Design, SDLC Basics

EXTRA-CURRICULAR, HACKATHONS & CERTIFICATIONS

Cardano India Codex Hackathon 2025: Developed secure wallet connection enabling NFT minting.

Lumen Hackathon 2025: Built subscription management platform for scalable data handling.

Technology Job Simulation – Deloitte (Jul 2025) [Certificate](#)

Programming using Java – Infosys Springboard (May 2025) [Certificate](#)

Software Engineering Simulation – JPMorgan Chase (Jan 2025) [Certificate](#)

Career Essentials in Software Development – Microsoft + LinkedIn (Aug 2024) [Certificate](#)
